

If you've never used a training plan before then don't be put off – it is a guide and doesn't have to be followed to the letter.

This is supposed to be fun - SO HAVE FUN!!!

Tips:

SPECIFIC)

If training on the road, incorporate some hills into your training.

Add front & back flashing lights to your bike if training outside.

If riding stationary bike, reduce scheduled distance by 0.75 to account for lack of downhills and freewheeling.

Drink fluid throughout training (or event) ride.

Aim for 500ml fluid per 1 hour.

Eat something after 1h30min (depending on metabolism).

Do not ride event on new equipment or supplements (or food & drink) - test it out a few days ahead of the event

Do not eat anything special (that you are not used to) the day before your event - it can cause an upset stomach on the day.

	Week 1	Week 2	Week 3	Week 4
	Easy	Moderate	Moderate	Easy
	Week 1 is purely to get used to riding a bike multiple times a week. There are no complicated training sessions. Just get time in the saddle.	Week 2 is a progression from week 1 where we will start to add more specific efforts (nothing too complicated)	Week 3 is a progression from week 2 where we will start to add more specific efforts (nothing too complicated)	Week 4 will be easier than the previous 2 weeks as your body will need to recover and adapt to the training completed thus far.
Monday	Prepare Check over your bike and kit, making sure everything is ready for you to begin riding tomorrow.	Rest & Recovery day Ideally, get a massage or at least perform self-massage of your leg muscles, especially your quads.	Rest & Recovery day Ideally, get a massage or at least perform self-massage of your leg muscles, especially your quads.	Prepare Clean & check over your bike and kit, making sure everything is ready for you to begin riding tomorrow. Remember, a clean bike is a fast bike. If possible, get a massage or perform self-massage on your legs.
Tuesday	45min ride Easy ride on the road or on a stationary bike. Your effort should be such that you can hold a conversation easily.	1hr ride Easy ride on the road or on a stationary bike. Your effort should be such that you can hold a conversation.	1hr 15min ride Easy to moderate ride on the road or on a stationary bike. During the ride, perform 5x 30s harder efforts (at feel) with 3min easy pedalling between sets.	45min ride Easy ride on the road or on a stationary bike. Your effort should be such that you can hold a conversation easily.
Wednesday	30-45min ride Easy ride. Aim for 30min minimum depending on your bum & legs (how sore they are)	45min ride Easy ride on the road or on a stationary bike. Your effort should be such that you can hold a conversation easily. This ride is an active recovery ride with the idea of keeping the legs moving for the next day's harder session.	45min ride Easy ride on the road or on a stationary bike. Your effort should be such that you can hold a conversation easily. This ride is an active recovery ride with the idea of keeping the legs moving for the next day's harder session.	1hr 15min ride Easy ride on the road or on a stationary bike. Your effort should be such that you can hold a conversation easily.
Thursday	1hr ride Easy ride on the road or on a stationary bike. Your effort should be such that you can hold a conversation easily.	1hr ride Easy to moderate ride on the road or on a stationary bike. During the ride, perform 5x 30s harder efforts (at feel) with 3min easy pedalling between sets.	1hr 15min ride Easy to moderate ride on the road or on a stationary bike. During the ride, perform 5x 1min harder efforts (at feel) with 3min easy pedalling between sets.	Rest Try and do some stretching on your rest day. 15min to stretch out your legs, shoulders and back.

	Week 1	Week 2	Week 3	Week 4
Friday	Rest Try and do some stretching on your rest day. 15min to stretch out your legs, shoulders and back. 	Week 5	Week 6	Week 7	Week 8
	Hard	Hard	Hard	Easy
	Week 5 will be your first hard week. Your body would have adapted to the training load with week 4 providing adequate recovery to adapt.	Week 6 will be a progression from week 5 and will include slightly longer efforts.	Week 7 will be another hard week before a recovery week next week.	Week 8 will be easier than the previous 3 weeks as your body will need to recover and adapt to the training completed thus far.
Monday	<u>1hr ride</u> Easy/Moderate ride on the road or on a stationary bike. Your effort should be such that you can hold a conversation.	<u>1hr 15min ride</u> Moderate ride on the road or on a stationary bike. Your effort should feel harder than usual with elevated heart rate numbers.	<u>Rest & Recovery day</u> Ideally, get a massage or at least perform self-massage of your leg muscles, especially your quads.	<u>Prepare</u> Clean & check over your bike and kit, making sure everything is ready for you to begin riding tomorrow. Remember, a clean bike is a fast bike. If possible, get a massage or perform self-massage on your legs.
Tuesday	<u>1hr 15min ride</u> Moderate ride on the road or on a stationary bike. During the ride, perform 5x 1min harder efforts (at feel) with 3min easy pedalling between sets.	<u>1hr 30min ride</u> Moderate ride on the road or on a stationary bike. During the ride, perform 5x 90s harder efforts (at feel) with 3min easy pedalling between sets.	<u>1hr 30min ride</u> Moderate ride on the road or on a stationary bike. During the ride, perform 5x 90s harder efforts (at feel) with 3min easy pedalling between sets.	<u>45min ride</u> Easy ride on the road or on a stationary bike. Your effort should be such that you can hold a conversation easily.
Wednesday	<u>1hr 30min ride</u> Easy ride on the road or on a stationary bike. Your effort should be such that you can hold a conversation. This ride is an active recovery ride with the idea of keeping the legs moving for the next days harder session.	<u>1hr 15min ride</u> Easy ride on the road or on a stationary bike. Your effort should be such that you can hold a conversation easily.
